6th Grade

Dear 6th graders, you are doing a great job completing all the work, I ask that if you are doing the work on your own, especially the writing part, you continue that way.

I am your ELA teacher and I am familiar with everyone's writing style (how you write, how you put sentences together, and how you express yourself).

If you allow someone else do the work for you (especially writing short answers and essays), then you are not fully expressing yourself as a 6th grader.

**Remember, your (writing or essays) should come from you!
If you need help or need more time, please reach out to me.**
